

Mechanical	
Dimensions	87 x 87 x 39 mm (3.4 x 3.4 x 1.5 inches)
Housing	Moulded polycarbonate
Mounting	Suitable plain surface
Fixing	4mm., maximum diameter

base model No.	Product Description
RX1backbox	<p>The RX1 BACK BOX is an optional extra, providing a high profile mounting base to the RX1 and RX1K access control readers.</p> <p>The unit replaces the standard backplate to the reader, offering an alternative method of mounting the module, especially when installing security projects to existing architecture and using 20mm diameter surface-mount conduit cable trunking.</p> <p>The back box provides several screw hole fixings points with defined cable access to the reader, and easier positioning of wiring to the reader's connection terminal. The greater depth provided by the back box permits 20mm diameter cable trunking to be properly secured by the standard hex nut inside the unit.</p>

(back box with RX1K fitted)

Key features

- UK design and manufacture
- Black matt finish
- High profile
- Tough ABS
- The back box is supplied with a tamper detection pillar fitting. YOU DO NOT NEED TO INSTALL THIS MECHANISM IF YOUR READER IS NOT FITTED WITH TAMPER DETECTION
- PLEASE CALL **+44 (0) 1495 751 992** to discuss your CUSTOM CONFIGURATION of reader requirements.
