Overview

The RX6 advanced access fingerprint control reader is an elegantly designed unit, delivering the latest multispectral imaging technology.

The unit has a black high gloss finish, and can be fixed to a plain wall surface, or directly to a standard single gang US back box.

TEMPLATE-ON-A-CARD - This powerfully secure and innovative reader allows you to record, encrypt and digitally embed your fingerprint direct to your RFID access card. The RX6 does not need a central core database of fingerprint records, and may operate as a stand-alone unit (subject to control panel access authorisation).

Fingerprint enrolment for a 'user' requires a system 'administrator' authorisation.

Mechanical

Dimensions	149 x 63 x 70 mm (5.9 x 2.5 x 2.8 inches)
Housing	Moulded polycarbonate / stainless steel
Mounting	Suitable plain surface
Fixing	4mm., max' diameter

Environmental

Operating temp'	-35°C to +66°C
Humidity	85±5% at 30±2°C (86±3°F)
Ingress	IP54
Flammability	UL94V-0

Electrical

Voltage	see table below
Current	see table below
Data Voltage	Rest >4Vdc / Active <1Vdc
Data output	see table below
Indication	1 RGB LED + BIOMETRIC finger plate
Sounder	Integral speaker
Termination	screw terminal connection block

Reader Models are sold as customer-specific configurations.

Please call +44 (0) 1495 751 992 to discuss your custom configuration or LEGIC® reader requirements.
